City Project Manager: Lily Openshaw, P.E., Engineer  
Anchor Construction Project Manager: Wen Liang and Assistant, Courtney Zeiders  
Century Engineering Design Engineer: Terry Schaub and Construction Inspector Henryk Oswiecimka

Before and After

## HANOVER STREET RECONSTRUCTION

Dedication Ceremony and The Construction Process

Mayor Ellen Moyer and Alderman Richard Israel officially broke ground for Hanover Street on February 10, 2009. Present for the ceremony were residents of Hanover Street, City officials and officials from Anchor Construction and Century Engineering.

Salvaged granite curbs and bricks from Hanover Street were reused in the streetscape. Two old underground storage tanks were removed from the area.

### Beauty, Preservation and Protection

The trees were protected during construction and their new "bumpouts" created a beautiful, protective environment.
